he would be an awesome grandpa 11:38:57 <ustreamer|6955> : aw 11:39:02 <ustreamer|
9606> : does ustream use P2P to rebroadcast to my peers? 11:39:06 <ustreamer|3812> :
not only is about technology it too aply to the economy 11:39:08 <ustreamer|1848> : lol
seriously 11:39:36 <ustreamer|3812> : the prices oriented the efect of grow 11:39:44
<ustreamtech> : communication is the key to most of the worlds problems 11:40:15
<ustreamer|1312> : 9606, i think they are recording it 11:40:25 <ustreamer|1312> : so it
will be available afterwards, but i'm not certain 11:40:27 <ustreamer|7311> : who is this
guy ? 11:40:30 <ustreamtech> : and electronics will drive it all 11:40:43 <ustreamer|1312> :
Gordon Moore man! 11:40:47 <ustreamer|1312> : Intel Founder 11:40:47 <ustreamer|
3236> : Dr. Gordon Moore - Father of Moore's Law 11:40:48 <ustreamer|8833> : Hi
all...please send in questions for Gordon! 11:40:49 <ustreamtech> : this is MR. Intel
along with others 11:40:55 <ustreamer|7311> : ok 11:41:02 <ustreamer|1312> : we can
send him questions? 11:41:04 <ustreamer|1312> : ?? 11:41:04 <ustreamer|3236> : Who
came up with the Intel jingle? 11:41:13 <ustreamtech> : thats what ustream is all about
11:41:24 <ustreamer|9606> : 1312, yes we can? 11:41:31 <ustreamer|1312> : Why did Intel
advertise on TV/Print even though they did not sell directly to people? 11:41:35 <ustreamer|
9212> : what did you have for lunch? 11:41:39 <ustreamer|1312> : Or Consumers 11:41:54
<ustreamer|4056> : Hi Gordon. What is the smallest possible transistor size (nm)? 11:41:57
<ustreamtech> : Gordon, can you envision what the world would be like without the
integrated circuit 11:42:08 <ustreamer|9212> : What does Gordon think of AMD tri-core?
11:42:50 <ustreamer|9606> : Gordon,Will Intel ever move into quantum computing?
11:43:04 <ustreamer|1312> : I just asked Intelmoore and you can ask questions directly
from chat 11:43:35 <Brad06> : What does he think the next big advance in computer will
be? 11:43:38 <ustreamer|3904> : whisremaining goals at intel? 11:43:56 <ustreamer|
3904> : sorry: what are his remaining goals at intel? 11:43:59 <ustreamer|4105> : Gordon,
will the Moore law will stop at a certain point of time ? 11:44:01 <ustreamer|6385> : Who
is this ditzzy broad? 11:44:21 <SarahJ> : what constraints are more influential: physical
or economical? 11:44:22 <ustreamtech> : Gordon, what is beyond silicon technology?
11:44:22 <jim_snowfort> : 6385. Nice touch 11:44:28 <ustreamer|1312> : 6385, be nice!
11:44:31 <ustreamer|7283> : Gordon (Ken & Travis...) what has surprised you the most
with Intel's innovation? 11:44:54 <ustreamer|3481> : Will Intel ever make a mainstream
reconfigurable microprocessor ? 11:44:57 <ustreamer|6385> : Sorry.....just wondering who
she is since I missed the intro. 11:44:57 <ustreamer|6955> : Hafnium is beyond silicon
11:45:00 <ustreamer|9212> : When was the last time you spoke to Andy Grove? 11:45:13
<ustreamer|8028> : Where is Deanna when you need her 11:45:18 <ustreamer|3904> : we
need more time to answer all these questions. can we extend this session by, say, 2 hours?

11:45:25 <ustreamer|6955> : lol 11:45:27 <Brad06> : Was that your question Ustreamtech?
11:45:44 <ustreamer|7283> : Join the panel at 2! Social media panel 11:45:45 <ustreamer|6183> : how do you see the future as far as humans and computers interacting? 11:46:01 <ustreamer|9212> : Can I borrow some cash? 11:46:18 <Brad06> : The advertising question is interest...I've never thought about it, but I think the fact that Intel did advertise to end users was brilliant 11:46:41 <ustreamer|9318> : who is this women? 11:46:41 <ustreamer|6385> : Yes, users began to seek "intel inside"... 11:46:42 <ustreamtech> : How does Gordon feel about adoption, in particular me.. 11:46:43 <ustreamer|1312> : is there another stream after this? 11:47:00 <ustreamer|8417> : how far away are we from using light as means of semiconduction in microprocessors? 11:47:00 <christian_h> : How do you think that photonics will change the way microprocessors are designed and manufactured? 11:47:04 <Brad06> : Yes, the Intel Inside was BRILLIANT 11:47:09 <ustreamer|3904> : can i be adopted as well? i'd like to extend this questo andy grove as well. 11:47:10 <ustreamer|9212> : If you weren't Gordon Moore would you be Ron Paul? 11:47:17 <Brad06> : I hope their marketing guy got a big bonus for that one 11:47:25 <intelmoore> : 3pm, IT panel and social media 11:47:34 <ustreamtech> : amen Brad 11:47:34 <ustreamer|7192> : where is that? 11:47:41 <ustreamer|1312> : same website? 11:47:49 <ustreamer|9318> : Who is the interviwer? 11:47:56 <ustreamtech> : hey Brad06 arent you one of the ustream founders? 11:48:05 <ustreamer|3904> : moira gunn, npr host 11:48:06 <intelmoore> : ustream.tv/intelidf 11:48:06 <Brad06> : Yes..
