

OS Streaming AND intel vPro technology...

[Damien Bruley](#) 8 posts since

Jun 28, 2009

Hi,

I've written a document on why Intel vPro and OS Streaming solutions make together a perfect match to completely reduce Desktop Management.

If you need more information on OS streaming , comment my blog : www.damienbruley.com/vDisk.html or www.virt-now.com

Thanks for feedback

Damien
